Introducing Quartz Fabrication Ltd. A quartz fabricator with state-of-the-art machinery and a working partnership with three of the leading and most innovative brand names within the industry.

At Quartz Fabrications Ltd our goal is to ensure that we supply your quartz project with the highest quality standard available.

## What Quartz Fabrications Ltd can offer you?

We are able to offer an instant quote service using our website: [www.quartzfabrications.co.uk](http://www.quartzfabrications.co.uk). Once you have applied and had your account opened you can

Quoting and ordering can be completed on line within minutes with our easy to use step by step process.

You can select various brands and colours, edge profiles, enter work surface dimensions and select additions required to get your quote or place an order.

Is your customer undecided on upstands and splashbacks etc? Add them on to the quote. All of the items you select are individually priced so it's easy for you to offer multiple quotes.

We have an in house team of programmers, templaters and fitters allowing us to oversee every step of the process, ensuring we supply each order with the highest degree of care and quality.

We have invested in the latest state of the art machinery helping to ensure that all our products leave the factory to the highest standard.

Quartz Fabrications have teamed up with one of the leading and most recognised brands in the quartz market.

In a demanding world, it is very important to have a material up with Silestone, one of the that is the only one of its kind. Silestone and the Cosentino Group support all showrooms and dealers with a unique product and marketing focus - generating trends and demands within the marketplace.

**Overview**

50 colours stocked in the UK

All available in 30mm, 20mm and 12mm

Silestone's design-led range contains 50 colours, all stocked within the UK. They are available in 30, 20 and 12mm.

Silestone is a compound made up of 94% natural quartz, which make it extraordinarily hard and resilient. It is an excellent surface for kitchen worktops, bathrooms, floors and wall cladding using the minimum number of joints.

Caesarstone is a beautiful engineered quartz stone which comprises approximately 93% natural quartz.

The surfaces are ideal for virtually any interiors work surface, from kitchen worktops, countertops, bathroom worktops, vanities, wall panelling and commercial interiors.

The hard, non-penetrable surface makes cleaning simple and in most cases, soap and water or a mild detergent are all that are required to maintain its lustre.

Quartz Fabrications have teamed up with Caesarstone, an early pioneer and leader of the natural quartz surface market.

Caesarstone's dominant position in the market has been achieved through continuous investment, extensive research and development.
